

RISING LEADERSHIP PROGRAM

INSPIRE. INFLUENCE. TRANSFORM. LEAD.

INSPIRE. INFLUENCE. TRANSFORM. LEAD.

The Rising Leadership Program equips mid-level professionals from all sectors and industries with the tools to become authentic and effective leaders in the workplace. This Program will show you how to build your potential through personal growth and help you understand the essential skills required by future leaders.

“The Rising Leadership Program provided me with the opportunity to reflect on my professional and personal journey, both past and future, and helped me better understand how I could be more effective and impactful through my actions. Not only that, Rising also provided me with an incredible network of people that I can now call on for guidance.”

Regan Ashley Senior Project Manager, Vital Images,
Rising Leadership Program Graduate

LEARNING OUTCOMES

The Rising Leadership Program will give you the frameworks, tools and relevant resources to help you on your journey to becoming an effective leader. The six-month program introduces you to practical cutting-edge strategies and theories to develop your professional leadership. The Program will help you:

- Identify and build on your existing strengths
- Improve your ability to influence, persuade and make an impact
- Gain confidence and capacity to negotiate complex leadership challenges
- Create networks to achieve results
- Develop a clear understanding of how to motivate and inspire people and teams to achieve performance goals
- Increase your ability to drive sustainable change
- Understand who you are as a leader and what motivates you
- Discover how to take on leadership roles
- Identify tools and strategies to coach and provide feedback to others

The Program uses HBDI® psychometric analysis. HBDI® teaches you how to communicate with those who think the same as you and those who think differently to you. Once an individual understands how to use these thinking style preferences, the door is open to improved teamwork, leadership, customer relationships, creativity, problem solving, and other aspects of personal and interpersonal development.

PROGRAM OVERVIEW

The Rising Leadership Program is structured around a series of twelve carefully designed leadership experience days to ensure learning is individual, meaningful and transferable.

Experiences focus on learning through engagement with diverse West Australian leaders, self-exploration and dynamically structured group discussion. A typical experience day runs from 9.00am to 4.00pm and includes:

- In-depth exploration of a key leadership focus
- Discussion of topical leadership examples within a Western Australian and global context
- Collaborative work on an empowering Community Project, giving back to Western Australian not-for-profits
- Tools and frameworks for thinking and action

The Rising Leadership Program explores a variety of themes that speak to different areas of your personal and professional development. These may include:

- Start With Your Why And Make A Difference
- Opening The Door To Influence
- Framing Your Values
- Leading With Vision
- The Courage To Change And Fail
- What Makes A Leader Credible?
- Resilience To Succeed
- Developing Your Best Self
- The Ongoing Connection

“My Rising experience has definitely impacted on me as a leader. It has given me valuable insight on how to deal with various challenges that leaders face including organisation and time management; resilience; community engagement; and values. It’s really made me think about the type of leader I want to be.”

Erin Cleaver Senior Consultant, Hudson,
Rising Leadership Program Graduate

LEARNING THEORIES

The Rising Leadership Program is based around the world-renowned experiential learning theory of Kolb’s Experiential Learning Matrix (1984, 2017) where participants are exposed to theory, application and reflection on a constant basis. Leadership WA also understands the importance of addressing the learning needs of the whole cohort, ensuring there is a balance between theory, opportunity to reflect, relevancy and ability to act (Honey and Mumford 2000), as well as Kegan’s Adult Levels of Development. These approaches ensure participants have a self-directed learner-centred experience.

“The Rising Leadership Program is one of the only courses (of many including University and professional qualifications) where I felt it was not a box ticking exercise. I truly grew in so many ways and tied many loose ends together.”

Ian Rathbone, CFO, Australian Export Grains Innovation Centre, Rising Leadership Program Graduate
